Biography

There are seven artists with the **FEEDBACK**:

1) **FEEDBACK** is a German rock band from Bavaria. Already founded in the seventies at St. Ottilien as a school band **FEEDBACK** got very popular in 2003 with their album "Rock my soul". Their most famous member is Abbot Primate Notker Wolf, the current head of the Benedictines.

2) Feedback is a London rock band. The band has had as many lineups as Michael Jackson has had children. Keyboarders, drummers and guitarists have passed by with all the longevity of a particularly feeble butterfly, the only constants being Andrew (Lead Guitar/Vox) and George Parry (Bass), who have been in the band from start to finish. However, after a couple of name changes and a vast number of drummers, the band appears to have decided on a lineup.

The two girls of the band, Charlie (Lead vocals/rythmn guitar) and Lauren (Keyboard/guitar), were introduced in the early Spring of 2006. Charlie began singing lead vocals alongside Andrew in the Summer of 2006. Lauren took this opportunity to broaden her talents and begin playing guitar on certain tracks at the same time.

Adam (Drums) was introduced shortly after in the Autumn of 2006.

3) Feedback is a Slovenian band. They've been playing together since 1999.

From the site, www.feedback.si (it's in english as well as slovene):

Performs their own instrumental music, which is a blend of rock, blues and jazz. The influence of jazz can be felt more strongly. Their instruments come from the 70s, which is reflected in their sound. Their music reflects their own feelings, the consequence of which are lively and playful songs. Together, they create music based on improvisation and experiences.

The members of the group have known each other and created music since 1995. At that time they played under a different name and with different members. They played mostly arrangements of other older authors and different styles of music, which gave a good starting point for **FEEDBACK** group. They discovered the style of music and playing on their own, and formed it through the years.

Under the name **FEEDBACK** they played throughout Slovenia, mostly in clubs and festivals. It is worth mentioning following gigs: Rock Otocec, where they represented the young and unrecognized groups, and Jazz/Blues festival in Nova Gorica. They are able to play with various groups due their adjustability. Their CD cannot be found in stores just yet, since they are still looking for a suitable sponsor.

4) Feedback is a Bangladeshi band that started and got popular in the late 80s and early 90s in Bangladesh. They had released 4 albums till 1994. After that the band's lead vocal Maksud left and formed the band "Maksud O Dhaka". After a long time during 2005, Feedback released their fifth album "O2".
